

How Are You Feeling?

Covid-19 (Coronavirus) Update

We are in the heart of cold & flu season, and we also are closely monitoring our community in light of the concerns surrounding Covid-19 (Coronavirus). Before you visit one of our residents or patients please read below:

- Do you have a fever, cough or any respiratory symptoms?
- Have you traveled outside the U.S in past 21 days?
- Have you come in close contact with anyone with respiratory symptoms or who has traveled outside the U.S.?

If any of the items apply to you please consider delaying your visit until a later time.

How Can You Help?

We ask that you practice proper hand and respiratory hygiene as well as cough etiquette:

- Wash your hands frequently with soap and water
- Use hand sanitizer (dispensers are placed in many locations throughout the Health Center)
- Cough or sneeze into your elbow
- Keep your hands away from your face

We appreciate your assistance in helping us keep the entire Fairview community healthy!
